Skills

Python
Flask
HTML
CSS
Javascript
SQL
Machine Learning
Deep Learning
Natural Language Processing
Feature Engineering
Data Analysis
Time Series Analysis
Pandas
NumPy
R

Education

BS Abdur Rahman Crescent Institute Of Science and Technology
2020 - Present
B.Tech-Artificial Intelligence and Data Science

Narayana Junior College
2018 - 2020
Other Qualification-MPC

Dr KKR Gowtham EM high school
2006 - 2018
Other Qualification-MPC

Project

Anime Recommendation System
A website Built using Flask HTML CSS and JavaScript which works on Cosine Similarity Algorithm and NLP Techniques used Content Based Collaborative Filtering and Popularity based methods has a built in Chat Bot to assist user also Recommend on basis of Mood and favorite Genres.

Ecommerce-Website
A website Built using Flask HTML CSS and JavaScript Which is implemented using Deep Learning Techniques to extract feature from product Images and KNearestneighbor technique to find Similar products which have Those features Also has a inbuilt Chat Bot to assist the User.

Achievements

I have Implemented various Powerful Machine Learning , Deep Learning and Natural Language Processing Algorithms in my Personal Projects.
I built a Recommendation System and Ecommerce website using several Data Science techniques.
